### Career Objective

Seeking a Full-Stack Developer role where I can apply my experience in Flutter, React, TypeScript, Firebase, and REST APIs to build scalable, user focused applications while continuously growing my software engineering and problem solving skills.

### Education

#### Arab Academy for Science, Technology & Maritime Transport

Bachelor's Degree in Information Systems

Cairo, Egypt

Oct 2021 – Jul 2025

### Professional Experience

#### SAP Junior Front-End Developer

Remote

*Eco Digital Solutions, Saudi Arabia*

Nov 2025 – Mar 2026

- Developed and optimized enterprise web applications using SAPUI5 and JavaScript across SAP Fiori environments.
- Translated business requirements into responsive, reusable, and data-driven interface components while maintaining SAP development standards.
- Engineered custom JavaScript logic supporting internal application workflows and dynamic business data.

#### Internship Trainee

Cairo, Egypt

*Dispatch Global Logistics*

Aug 2024 – Sep 2024

- Analyzed logistics data and workflows with Excel to support digital process improvements.

### Projects

#### HelpDesk – Full-Stack Web App

Sep 2026

*Full-Stack Developer*

- Built a full-stack help desk web application using Next.js, React, TypeScript, Prisma ORM, and PostgreSQL.
- Implemented role-based access for employees, support staff, and managers, with ticket ownership, status workflows, and authorization rules.
- Containerized the development environment with Docker, using PostgreSQL as the app database.

#### Petrojet SC – Squad Tactics Football Management App

Jul 2026 – Aug 2026

*Full-Stack Flutter Developer & UI/UX Designer*

- Architected an end-to-end Flutter application using Riverpod, MVVM, and GoRouter, with responsive bilingual coach and player experiences.
- Built role-based authentication, team invitations, player linking, rosters, contracts, fixtures, squad selection, and availability using Firebase Authentication and Cloud Firestore.
- Engineered an offline-first live match system with automatic synchronization, post-match reporting, and Firestore security rules.

#### SpotON – Smart Parking Management

Sep 2024 – Jul 2025

*Graduation Project – Team Leader, Developer & UI/UX Designer*

- Led a six-member team in developing a Flutter mobile app and web admin dashboard for real-time parking reservations.
- Integrated Firebase, Python ALPR, JavaScript, and Google Maps APIs for geofencing, navigation, QR access, and contactless vehicle entry, earning an **A+ graduation project grade**.

### Technical Skills

- **Front-End Development:** React, Next.js, TypeScript, JavaScript, SAPUI5, HTML, CSS

- **Back-End & Databases:** PostgreSQL, Prisma ORM, Firebase Authentication, Cloud Firestore, Cloud Functions
- **APIs & Data:** REST APIs, Real-Time Data, Authentication, Data Synchronization
- **Mobile Development:** Flutter, Dart, Riverpod, GoRouter, Kotlin
- **Architecture & State:** MVVM, State Management, Modular Architecture, Offline-First Systems
- **Tools:** Docker, Docker Compose, Git
- **Programming Languages:** JavaScript, TypeScript, Dart, Python, Java, C++

## Courses & Certificates

---

**Figma UI/UX Design Advanced** – Udemy (Aug 2025) | **Figma UI/UX Design Essentials** – Udemy (Jul 2025)  
**Sprints x Microsoft Camp – UI/UX Design** (Aug 2025)
